

Dana Rothstein - Ceramic Artist

Dana Rothstein creates brilliantly colored, boldly designed one-of-a-kind ceramic art pieces.

Dana's work is both thrown and handbuilt, and ranges in size from miniatures to very large vessels constructed with hand-rolled slabs. She uses a variety of imprinting and glazing techniques, and each of the handbuilt pieces is unique in design, form, and color, with unglazed exteriors often contrasting strongly with richly colored interiors. Although all are functional, their organic shapes suggest shell and flower forms and their size lends them a strong sculptural quality.
